

Shubham Shukla

Fullstack Developer • Frontend Developer • Backend Developer

Uttar Pradesh Technical University • 2024 Pass out

Projects

Spotify-clone

- Front-end Development: Practice working with front-end technologies like React.js, Next.js, or Vue.js to create responsive and interactive user interfaces. Back-end Development: Gain experience in building RESTful APIs or GraphQL APIs using Node.js, Express.js, or other back-end frameworks. Database Management: Learn how to design and manage databases, often using MongoDB, MySQL, or PostgreSQL, to store user data, playlists, and song metadata. Authentication and Security: Implement secure user authentication (e.g., OAuth with Spotify's API) and authorization mechanisms. API Integration: Learn how to work with third-party APIs, such as the Spotify Web API, to fetch music data, manage playlists, and control playback.
- Developing a Spotify clone involves several stages, from setting up the development environment to deploying the final application. Here's a step-by-step overview of how such a project can be developed: Outline the key features you want to include, such as user authentication, music playback, playlist management, and search functionality.
- OAuth 2.0 Integration: Secure authentication through Spotify's OAuth, allowing users to log in using their Spotify accounts. User Profile Management: Display user information like profile picture, display name, and playlists. Playback Controls: Implement basic controls like play, pause, skip, seek, and volume adjustment. Current Track Display: Show details of the currently playing track, including album art, track name, and artist. Playback Queue: Allow users to view and manage the playback queue.

Skills Developed: HTML, CSS, Javascript, React.js, NodeJs, MongoDB

Tagline

Hi there! I am a Full Stack Web developer. Learning DSA at GFG, Code Studio ,Codechef & Leet Code. I have had 250+ problems solved on all coding platforms. I am well versed in HTML and CSS, Tailwind CSS,Javascript,Node .js,Express.js,React.js,Java, MySQL, MongoDB, etc. I am currently working on Next js projects. You can find me being indulged in making lots of Project.

Skills

HTML | CSS | Java | Data Analysis | Javascript | React.js | NodeJs | MongoDB | NextJs | Python

Education

Abdul Kalam Technical University, Lucknow
B.Tech, Computer Science Engineering (CSE)
| 7 CGPA
2020 - 2024

G.V.B.M Inter College,Allahabad,UP
Class X | 8.5 CGPA
2017 - 2017
